

IAT's Loss Control team is strategically located throughout the country to meet the needs of both agents and dealers, enabling us to offer onsite (and virtual) Pre-Quote Loss Control Assessments with the goal of holistically understanding dealers' safety programs prior to quoting.

HOW PRE-QUOTE CAN GET YOU A COMPETITIVE QUOTE:

- Gives underwriters the confidence to price business more competitively for better than average risks
- Allows underwriters the opportunity to recommend actions dealers can take to improve their performance on average or below average risks
- Provides the opportunity for IAT Loss Control to give guidance to the dealer on how to mitigate risks specific to their operations
- Presents a foundation to build a healthy business relationship with the dealer based on mutual respect and continued performance improvement

IAT'S LOSS CONTROL PORTAL:

Our Loss Control portal offers agents and dealers free, unlimited access to risk management resources including:

- Safety training documents
- On-demand training videos
- Quarterly Safety Gazettes
- And more!

[Click here to request access.](#)

When requesting access to the portal, please include your agency number or type **agent** where the form requests a policy number.
