

IAT Aviation provides standard and innovative insurance products to the General Aviation community with a focus on unique, hard-to-place risks. Our mission is to better protect the assets of the insured and to provide insurance producers with easy access to exceptional aviation knowledge and underwriting skill.

The FAA recently published a report that revealed a distinct need for pilot safety and training. As a result, IAT Aviation places emphasis on both.

OUR TARGET RISKS

- Municipal and Private Airport/Airparks
- Aircraft Maintenance Facilities
- Fuel and Oil Sales
- Other FBOs
- Facilities Located Off-Airport

OUR DIFFERENTIATORS

IAT Aviation offers \$2M hull and \$2M liability limits.

Under IAT Aviation's **Flight Test Clause** in our Aircraft Policy, aircraft with "Standard" airworthiness certificate, may fall under "Experimental" or "Restricted" airworthiness due to maintenance requirements, equipment changes, or other changes to the aircraft. This addition to our policy fills a gap in our competitors' policies.

Crew members may be entitled to passenger benefits.

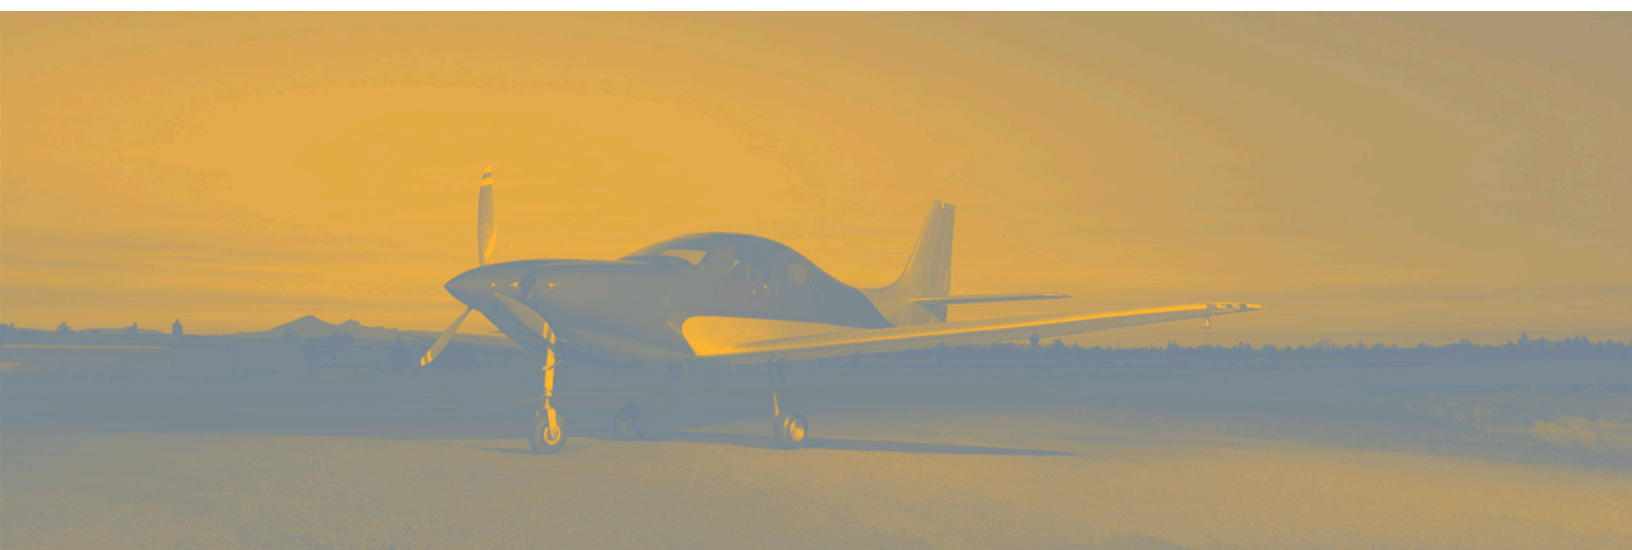

Land Gear is always considered part of the aircraft, even when removed and replaced by landing gear designed for water operations.
