Financial Highlights

Founded in 1991 by the Peter R. Kellogg family with just \$11.5 million of GAAP equity ("Book Value"), IAT Insurance Group is one of the largest privately held insurers with a Book Value of \$1.4 billion at the end of 2023. The company has remained focused on steady growth and has produced an industry leading 17% compound annual return since inception. The entire growth in Book Value since 1991 has been derived from operations and the return on the investment portfolio.

IAT ended 2023 with a Book Value of \$1.4 billion. Over the past two years, IAT has increased Book Value by 8% despite 2021 being our worst year for catastrophe losses on record, and despite the significant decline in Book Value for the entire insurance industry in 2022 due to the significant declines in the value of bond portfolios.
